The Cumulated Index Medicus, which supersedes the monthly Index Medicus, is published annually by the American Medical Association. All communications regarding subscriptions to the cumulated edition should be addressed to the Circulation-Records Department, American Medical Association, 535 North Dearborn St., Chicago, Illinois 60610. Price: $40.00 per set in U. S., U. S. Possessions, and Canada; all other countries, $45.00. Only complete sets will be sold.

# INTRODUCTION

Volume IV of the *Cumulated Index Medicus* contains 129,808 articles. The format is arranged as in other volumes: a Subject Section and an Author Section in which complete unit citations are printed under the name of the senior author. In the Author Section, all secondary authors' names are referred to the full reference under senior author. The complete entry generally includes the names of all authors cited in the article; the title of the article as given in English language or its translation enclosed in parentheses; the journal title abbreviation; the volume number; inclusive pagination; date of issue; indication of original language of the article if other than English. The following are foreign language abbreviations used in the *Cumulated Index Medicus:*

| | | | |
|---|---|---|---|
| Af | Afrikaans | It | Italian |
| Al | Albanian | Jap | Japanese |
| Ar | Arabic | Kor | Korean |
| Arm | Armenian | Lith | Lithuanian |
| Az | Azerbaidzhan | Nor | Norwegian |
| Bul | Bulgarian | Per | Persian |
| Ch | Chinese | Pol | Polish |
| Cz | Czech | Por | Portuguese |
| Dan | Danish | Push | Pushtu |
| Dut | Dutch | Rum | Rumanian |
| Fin | Finnish | Rus | Russian |
| Fr | French | Ser | Serbo-Croatian |
| Geor | Georgic | Sl | Slovene |
| Ger | German | Sp | Spanish |
| Gr | Greek | Sw | Swedish |
| Heb | Hebrew | Th | Thai |
| Hun | Hungarian | Tur | Turkish |
| Ic | Icelandic | Uk | Ukranian |
| In | Indonesian | Viet | Vietnamese |

The complete entry is arranged in alphabetical order, under the appropriate subject heading, by the first letter of the senior author's surname. In the Author Section, this entry appears in alphabetic arrangement according to the author's last name. The typical junior author cross reference appears as follows:

Gaudier B see BRETON A

Articles about an individual are listed in the Subject Section under the headings BIOGRAPHIES, OBITUARIES and FAMOUS PERSONS. Entries are listed under the headings BIOGRAPHIES and OBITUARIES alphabetically by the subject of the article rather than by the author.

The entries utilize the minimum amount of punctuation consistent with clarity. A key to the journal abbreviations, based upon a system devised by the National Library of Medicine, is found in Part One of the *Cumulated Index Medicus.*

### Subject Headings

The subject headings used in Volume IV of the *Cumulated Index Medicus* are designed to satisfy two requirements of MEDLARS (Medical Literature Analysis and Retrieval System): the published Index and the search system which will go into full-scale operation in 1964. The headings, which represent major changes from previous editions, are based on the 2nd edition of *Medical Subject Headings,* prepared by Winifred Sewell, Deputy Director of the Bibliographic Services Division of the National Library of Medicine.

A discussion of the innovations, including the elimination of subheadings as well as devising of categorized lists of terms, may be found in the 2nd edition of *Medical Subject Headings* which is available from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., at $2.25 per copy.
